IBX-RW4

LIVINGVOICE

The IBX-RW4 is the epitome of the ultimate all-round performer within the Living Voice range. The internal crossover version of the 'flagship' OBX variant, the IBX-RW4 possesses a near perfect balance of size, bandwidth, efficiency and tonal refinement. This is the choice for the serious music lover where domestic considerations rule out external crossovers.

The IBX-RW4 creates an organic, seamless three-dimensional spaciousness, allowing the music trapped within the recording to be unlocked, and the musicians' artistic expression to shine through. The musical performance can breathe and there is shape, texture and energy across the full frequency range. The bass performance is deep and rich with scale, authority and ease.

The overall listening experience is of genuine musical insight and involvement.
